

Especially Designed for **More Compact Homes**

Compact, but roomy!

Due to its very compact size, this model easily installs anywhere, which makes it perfect for smaller homes, condos and townhomes. Its filter bag also has a more compact design, but it still has an impressive capacity.

Convenient

This system conveniently opens from the top, so you have easy access to the bag by simply removing the lid!

Quiet

This central vacuum is amongst the most silent vacuums on the market, so you can clean at any time, without disturbing the entire household.

Powerful

Amazingly more powerful than typical portable vacuums and is well suited for up to most 3,500 SQ. ft. homes!

Non-allergenic

Given its outstanding filtration system, you're sure to benefit from a healthier environment. All our models are equipped with a Cyclofiltre™ that has been provided with an antimicrobial treatment, so as to prevent the growth of mold, bacteria, and fungi that may be associated with allergies.
