

# Compact, But **Very Powerful**

# GS<sup>135</sup>

## Powerful

Perfect for condos, townhomes and regular single family applications because of its compact size, this amazingly powerful model can easily match those designed for larger homes, such as our H215 and H315 models.

## Compact, but roomy!

This unit's canister is also larger than other compact models, so you can vacuum more dust before changing the bag.

## Quiet

This central vacuum is amongst the most silent vacuums on the market, so you can clean at any time, without disturbing the entire household.

## Non-allergenic

Given its outstanding filtration system, you're sure to benefit from a healthier environment. All our models are equipped with a Cyclofiltre™ that has been provided with an antimicrobial treatment, so as to prevent the growth of mold, bacteria, and fungi that may be associated with allergies.
